Thin Folks Get Fat On Three Meals A Day

People Can Increase Weight.

People Can Increase Weight.

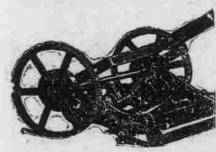

Most people who are thin and under normal weight eat heartly, but get no increase in flesh, while plump, chunky folks of normal weight eat less than they do and keep stout all the time. The underweight ones finally decided that nothing can make them to their food has nothing to do with flesh-making and that nothing can make them fat. But this is not so.

A stout, strong, robust body can come alone from food nourishment. Food is the source of all fat, and if you are thin and underweight it is merely a fortion of the fesh-making southlood and tissues. The assimilative functions of your stomach and intestings are not working properly and the larger part of the food value is leaving your body as waste, condition, to gair fiesh, increase weight and get 100 per cent. INCENDIARY BURNS

OLD LYME STORE. Babcock Place at Silltown Was Set on Fire Wednesday Morning.

Babcock's store, formerly the Smith store, in Silltown, Old Lyme, was destroyed by fire early Wednesday morning. The building was a combined dwelling and general store and was owned and occupied by Willis C. S. Babcock, his son, Herman conducting the store. The fire started in the wood shed on the north side of the building and was discovered by Hiram Babcock, who slept over the store, and was awakened by the smoke and blaze was awakened by the smoke and blaze about 3.15. The fire was then under such headway that he was unable to such headway that he was unable to get down the stairs and had to escape through the window on the south side. A call was immediately sent to the telephone exchange, and the night operator gave the alarm throughout the town. A large number were soon on the scene of the fire which was about a mile and a quarter distant from the village, but the fire was then beyond control and all efforts were made to save the contents and the dwelling house directly in front owned by the estate of J. H. Bradbury and Co., and occupied by Richard Daniels and family.

WHITE RIBBON INSTITUTE FOR THIS COUNTY.

Held In Pawcatuck Congregational Church-Jeremiah Church Given Medal Award,

Among those present at the institute of the W. C. T. U. of New London county held Wednesday at the First Congregational church at Pawcatuck, were Miss Harriet G, Cross, president of the Norwich union and Mrs. Mrs. J. J. Fields. The institute consisted of morning and afternoon session with Mrs. H. Addle Randall of Groton, county president, in the chair. The morning session opened at 10,30 o'clock with the singing of What a Friend We Have in Jesus, and the devotional service was conducted by Mrs. L. K. Fuller, editor of the White Ribbon Banner. Mrs. Fuller took as her topic, Personal consecration and read Romans 12 as the scripture selection.

Mrs. Randall expressed her pleasure at being present in appropriate

ure at being present in appropriate words and the committees were then appointed. Mrs. Ruth Nash was appointed press committee for the local newspapers in Pawcatuck and Mrs. J. J. Fields was appointed on the credential committee

Miss Mary Day, county secretary re-ported on the meeting held last fall. Mr. McDonald, sastor of the church welcomed the institution in behalf of the church and Mrs. Frazier, president of the Pawcatuck union welcomed the institute in behalf of her union.

Is Taxation Lowered. The first paper, read by Mrs. F. L. Hall of Pawcatuck dealt with the sub-ject, Does License Money Lower Taxaon? In her paper Mrs. Hall said: We find upon a faithful examination that the license money received is less than 5 per cent. of the total revenue in the ten states examined. In view of this fact it does not seem

to need argument to convince the most doubtful that from a purely financial viewpoint the liquor traffic is a death-ly drain upon the public money. When we realize that for every dollar of state or municipal revenue it takes not less than \$40 from the people and the loss of this paltry dollar would hardly be noticed in the increase of taxation when we realize the conservation of efficiency in the 100,000 tax-payers that go down to a drunkard's

grave every year.

It has been impossible to ascertain exact figures concerning the actual income from license and expenditure of public money to take care of products of the saloon as the census enumerators have not separated the liquor license money from other business it. icense money from other business li-

censes revenue.

The paper was open for discussion.

Mrs. Newbury of Mystic then raed
a concise and interesting paper on the
subject Are License Laws Constitutional? In her paper Mrs. Newbury
said she did not think they were constitutional because license is given to censes revenue. ruin and to destroy.

Mrs. C. B. Buell, state president, was then introduced and she made a few

very appropriate remarks. Financial Status. A paper on The Financial Status of Prohibition States as Compared with Neighboring States was then read by Miss Mary Day. Miss Day said

Miss Day's Paper. Mrs. Lillian Mitchner, president of the Kansas W. C. T. U. says: "In 1880 when prohibition was adopted, and prior thereto, Kansas was exceedingly poor. During the 30 years of prohi-bition it has become one of the richest states per capita in the union.

Missouri has better natural advantages than Kansus, more mineral deposits and forests, richer soil, more rainfalls, nearer market facilities and its population is nearly twice as large.

"The saloon people say the prohibi-tion law has hurt business," says Mr Blue "but on Market street in Wheel-The days when there was neither the days when the days were in the same rooms." trolley, train nor fitney between here saloons were in the same rooms." He and Jewett City are recalled in an in-

North Carolina, in Gaston county, had 26 distilleries and now boasts 47 textile plants employing more than 2000 parks. Phylodalphia 75 swiddes ople. Philadelphia, 75 suicides, 0 murders, 75 deaths, supposed to due to liver troubles, are directly traceable to stimulants.

It costs the taxpayers of Philadelphia \$3,205,569 annually.

Woman Suffrage. At 12 o'clock, observed by all W. C. T. U. members as an hour of prayer,
Mrs. Buell offered prayer and the
singing of Holy Spirit Faithful Guide,
followed. Mrs. Anna C. S. Fenner of
New London spoke very forcibly on
the good accomplished by woman suffrage. Mrs. Fenner said that although woman suffrage had not been very widely favored by the United States, nevertheless in 1916 91 electors will be chosen with the help of woman voters. Mrs. Fenner said that when the antis custe the vote in suffrage states it quote the vote in suffrage states it should be remembered that women voters are by no means in the major-ity. In Wyoming 3-5 of the voters are men and in Colorado there are 60,000 more men than women. The women could never succeed without the help of good men and the men and women must cooperate in this work. In Connecticut the protection of lob-sters and clams seems more important than the protection of human lives, said Mrs. Fenner. When the antis cry out not to give women the vote because lewd women would be in the majority. Mrs. Fenner said she would quote Idaho, where no lewd women or men are allowed franchise. Mrs. Fenner said that nothing fills the brever with so much terror as the franchise-ment of women. In Colorado the first time the women voted 265 towns went dry and now they have over 800 dry towns. The meeting then adjourned for luncheon, served by the local union. A number went provided with basket lunches.

Campaign by Posters. The afternoon session was opened with the singing of More Love to Thee. Miss Harriet G. Cross, president of the Norwich union, then spoke very interestingly on the poster campaign. She had some large posters on exhibit. She told of the poster cam-paign originating in France. It is used extensively in Massachusetts at the present time,

Mrs. Fenner spoke of the way the

campaign is carried on in New London She said that in Boston posters are left on the boards for four months and that if it takes four months for the posters to penetrate the minds of the Bostonians, the posters ought to be left on Connecticut billboards for four

A discussion of the subject followed and Mrs. Fenner and Miss Cross were

The Plainest Girl Can Be Good-Looking

There is economy in good looks. It pays every girl to be good-looking and every woman owes it to herself to be as attractive as posible.

It is unfortunate that all women are not born beautiful, but nearly all can acquire good looks. The plain girl not only must use care in the selection of her clothes, but give especial attention to her hair—thin, wispy, dull and faded locks will destroy half the beauty of even a pretty face.

face.

If your hair is not beautiful, lacking that enviable softness, lustre and fluffiness, or is falling out, full of dandruff, too dry, by all means use Parisian Sage, an inexpensive flquid tonic, easily obtained at any drug counter or from Lee and Osgood. Simply rub Parisian Sage well into the scale. It will go right to the hair Simply rub Parisian Sage well into the scalp. It will go right to the hair roots, nourish them, and stimulate the hair to grow strong and luxuri-ant. It removes all dandruff, thor-oughly cleanses the hair of dust and excess oil, and makes it appear twice as abundant.

Parisian Sage is a scientific tonic that gives the hair just what is needed to make it fluffy, soft and gloriously radiant; and pretty hair will surely increase the charm and beauty of even the plainest girl.

White Ribbon Banner and also urged the members to take the national paper the members to take the national paper in order to keep posted on the work.

Mrs. Alice Palmer, Miss Edith Crandail and Mrs. F. L. Hall were heard in a vocal trio, Victory Bells. The collection was taken up and was followed by a very forceful address on Prohibition by Rev. Mr. McDonald. There have been great issues in times past, said the speaker. Today we have one even greater than the issue of 1881. As long as there remains a saloon, Rev. Mr. McDonald said he would fight against the liquor traffic. I stand for against the liquor traffic. I stand for absolute prohibition, he said. In 1916 the party which plants a prohibition plank in its platform will be the one who conquers. The saloon cannot be regulated, he said, any more than a boar constrictor can be regulated. regulated, he said, any more than a boa constrictor can be regulated. Among the speakers who followed were Mrs. Nichols, evangelistic superintendent of Rhode Island, and Mrs. Babcock of Rhode Island. Mrs. Babcock is a sister of the Connecticut state secretary, Mrs. Mary Gallup.

Mrs. Buell quoted some of the doings of the late legislature. She said that although prohibition lost in this last legislature, the members of the W. C.

legislature, the members of the W. C. T. U. should not be discouraged, for they will win in time. A solo, The Angel's Serenade, was finely rendered by Mrs. L. K. Burdick.
